

Drinking Water Website

Objectives:

The purpose of this session is to:

- Highlight selected areas of the Drinking Water website.
- Provide steps for finding topics on the Drinking Water website.

Welcome to the Pennsylvania Department of Environmental Protection

DEP is largely responsible for administering Pennsylvania's environmental laws and regulations. Each day, the department works to reduce air pollution; make sure our drinking water is safe; protect the water quality in our rivers and streams; make sure that waste is handled properly; support community renewal and revitalization; promote advanced energy technology; and help Pennsylvania's citizens prevent pollution and enforce environmental regulations.

NEW 2011 Chapter 109 Index

This index provides an outline of various topics within Chapter 109. The numbers listed are those found in the [online PDF version](#).

The citations for the Lead and Copper Rule Short-term monitoring requirements published in December 2010 are highlighted in blue.

Click on the "2011 Chapter 109 Index" link

Chapter 109 index: Monitoring Requirements Example

C	MONITORING REQUIREMENTS	109-24.2
109.301	General monitoring requirement.....	109-24.2
109.301(1)	Performance monitoring for filtration and disinfection	109-24.3
109.301(1)(i)(A)	Shall determine and record the turbidity level as follows:	109-24.3
109.301(1)(i)(A)(I)	For systems that operate continuously, at least once every 4 hours that the system is in operation except provided in clause (B)	109-24.3
109.301(1)(i)(A)(II)	For systems that do not operate continuously, at start-up, at least once every 4 hours that the system is in operation and also prior to shutting down the plant, except as provided in clause (B).....	109-24.3
109.301(1)(i)(B)	May substitute continuous turbidity monitoring and recording...At a minimum, calibration with an EPA-approved primary standard shall be conducted at least quarterly	109-24.3
109.301(2)	Performance monitoring for unfiltered surface water and GUDI	109-25
109.301(3)	Monitoring requirements for coliforms.....	109-27
109.301(3)(i)	Frequency.....	109-27
109.301(3)(II)	Repeat Monitoring	109-29
109.301(3)(iii)	Invalidation of total coliform samples	109-30
109.301(3)(iv)	Compliance determinations.....	109-31
109.301(3)(v)	Special purpose samples.....	109-32

- This is an example of the Chapter 109 index for a section of Subchapter C (Monitoring requirements).
- The yellow highlighting indicates that it was revised in 2009 under one of the five rules that were published that year. The rules are listed on the front page and on the heading of each page.

Chapter 109 index: LCR Public Education Example

109.1104	Public education and notification	190-171
109.1104(a)	Public education program	190-171
109.1104(a)(1)	Content	190-172
109.1104(a)(1)(i)	Content of written materials	190-172
109.1104(a)(1)(ii)	Information for non-English-speaking populations	190-172
109.1104(a)(1)(iii)	Submission of written materials	190-172
109.1104(a)(2)	Delivery	190-172
109.1104(a)(2)(i)	Community water system requirements	190-174
109.1104(a)(2)(ii)	Nontransient noncommunity water system requirements	190-174
109.1104(a)(2)(iii)	Extension of 60-day delivery deadline	190-175
109.1104(a)(3)	Discontinuation of public education program	190-175
109.1104(a)(4)	Notification of customer monitoring	190-175
109.1104(b)	Notification of customer monitoring	190-175
109.1104(b)(1)	Content	190-175
109.1104(b)(2)	Timing	190-175
109.1104(b)(3)	Delivery	190-175
109.1104(c)	Public notification requirements	190-175

- This is an example of the newest citations (in blue) for the Lead and Copper Rule Short-term revisions that were published in 2010.

Resources

- **NEW** Monitoring Waiver Resources for IOC, VOCs and VOCs
DEP has created a new Monitoring Waiver Resources Web page since the department has revised the monitoring waiver protocol for IOCs, VOCs and SOCs. This page contains general information about monitoring waivers, monitoring waiver application forms and instructions, a link to the final general update regulations, and a "Question and Answer" document.
- Electronic Tools for water system operators;
- Electronic Application Forms(Located in DEP's eLibrary)
Public Water Supply Permit Application Forms and Small System Grant Application Forms;
- Document Locator - Drinking Water Forms, Publications, and Technical Guidance; and

Click on the
"Document
Locator" link

Document Locator

Document Locator

DEP staff have developed publications, forms, fact sheets and technical guidance documents for the public and regulated community. To facilitate quick and easy access to these documents in the [eLibrary](#), staff in the Bureau of Water Standards and Facility Regulation have developed a "Document Locator" tool.

The documents have been divided into three main categories: Publications (fact sheets, booklets, pamphlets), Forms & Applications, and Technical Guidance. Each of these groups contain links to the available formats in DEP's eLibrary. The formats are in either PDF or Word. "PDF" (Portable Document Format) is an Adobe application. You must have Adobe Reader to use this format. The "Word" format is Microsoft's Word file format. You can obtain a Word Viewer by visiting Microsoft's [web site](#).

For any problems or questions concerning the Document Locator, contact Rhonda Manning at 717-772-4472.

To access the Bureau's documents, click on one of the following eLibrary category links:

- [Publications](#) (Books, Manuals, Reports, Brochures, or Fact Sheets)
- [Forms, Permits, & Applications](#)
- [Technical Guidance](#) (contains 10 numbers in the document number, no letters)

Click [here](#) to read the eLibrary Help page information that describes the document categories and their associated document numbers.

The eLibrary categories are listed here with examples of what materials are classified under each category.

- Publications (books, manual, report, brochures or fact sheets)
- Forms, Permits, & Applications
- Technical Guidance (contains 10 numbers)

Use the "click here" Help page to help you find eLibrary documents.

Consumer Confidence Reports

Annual Drinking Water Quality Reports

The links to water suppliers' Web pages in the table below are provided for easy access to information about the quality of the drinking water they serve to consumers. Water suppliers are listed alphabetically by system name.

Community water systems must mail or otherwise deliver a copy of a water quality report (Consumer Confidence Report) to each customer. Additionally, community water systems serving 100,000 or more people must post their current year's report to a publicly-accessible site on the Internet. Some community water systems serving fewer than 100,000 persons have also posted their reports on the Internet in a good faith effort to reach consumers who do not get water bills.

- [Detection and Violation Data](#) to help Pennsylvania community water systems prepare their annual Consumer Confidence Reports
- Forms now available:
 - CCR Report Template and Instructions (For Systems using only Groundwater Sources) [3800-FM-WSFR0113](#) (Fill-in Form)
 - CCR Report Template and Instructions (For Systems using only Surface Water Sources) [3800-FM-WSFR0114](#) (Fill-in Form)
 - CCR Certification Form (Blank Form), [3800-FM-WSFR0084](#)
- [CCR Completeness Checklist for Water Suppliers](#) (3800-FM-WSFR0085)
- [Consumer Confidence Handbook](#) (383-2129-003)

Click on the "Drinking Water CCR data" link.

- Now resembles the Drinking Water Reporting System in its appearance and selection criteria.

Consumer Confidence Reporting System

Welcome | Selection Criteria | Contact Us

Select System(S) Based On

Public Water System ID Public Water System Name County

- There are now several summary reports instead of a single CCR data report.
- These reports more accurately reflect your CCR reporting requirements such as minimum and maximum values to be reported as a range.
- There are two microbial summary tables:
 - Distribution microbial results
 - Source water microbial results (if required)
- There is now a turbidity report that summarizes the annual turbidity data that systems submit. You will still need to look at your individual turbidity data for reporting the highest individual value if it has not exceeded the maximum allowable turbidity limit.
- There are two disinfectant residual tables:
 - Entry point disinfectant levels
 - Distribution disinfectant levels
- There is information about how to find TOC data on Drinking Water Reporting System.

General Information About Monitoring Waivers

The department promulgated a general update to Chapter 109 (Safe Drinking Water) regulations on May 23, 2009. The purpose of the general update was to incorporate necessary federal requirements in order to obtain and/or maintain primacy for the Safe Drinking Water Program. Revisions to the department's monitoring waiver protocol were also necessary in order to obtain primacy.

All waivers issued for monitoring required through 2010 expired on Dec. 31, 2010. The upcoming compliance period marks the beginning of the next nine-year compliance cycle.

Drinking Water Management

What's New.....

3/25/11

NEW DEP has revised the 2011 Chapter 109 Index to include citations for Lead and Copper Rule Short-term Revisions (LCRSTR) which were published in the *PA Bulletin* on December 18, 2010. The LCRSTR revisions are highlighted in blue in the index.

3/25/11

NEW DEP has created a Lead and Copper Rule Short-term Revisions (LCRSTR) summary document that describes each revision and includes the Chapter 109 page number of the online Chapter 109 version.

Click on
"LCRSTR"
link

Water Standards and Facility Regulation Home

- ▼ Water Standards and Facility Regulation
 - ▼ Drinking Water Management
 - Program Activities Reports

 - ▶ Municipal Finance
 - ▶ Water Quality Standards
 - ▶ Innovative Water Technology

- The Lead and Copper Rule Short-term Revisions summary document is a 6-page document that describes each new revision to the existing Lead and Copper Rule. The revisions were published in the *PA Bulletin* on December 18, 2010. The Chapter 109 page numbers are included from the current online Chapter 109 document.

- Here's an example of what is included in the summary document.

Consumer Tap Notice of Lead Results

Under 109.1104(b)(1), a CWS must deliver a consumer tap notice of lead tap water monitoring results to persons served by the water at sites that are sampled.

The consumer notice must include:

- 1) Results of lead tap water monitoring for the tap that was sampled.
- 2) Lead health effects language.
- 3) List of steps consumers can take to reduce exposure to lead in drinking water.
- 4) Water system contact information.
- 5) Action Level and Maximum Contaminant Level Goal definitions. **Page 109-175**

Under 109.1104(b)(2), a water supplier shall provide the consumer notice within 30 days after the supplier learns of the tap monitoring results. **Page 109-175**

Under 109.1104(b)(3), the consumer tap notice shall be delivered to persons served at the tap that was sampled either by mail or by another method approved by DEP. The system shall provide notice to all persons served by the tap that was sampled, including consumers who do not receive water bills. **Page 109-175**

Steps for Finding Topics on DEP's website

Steps for finding topics on DEP's website

Step 1: Go to DEP's home page:

http://www.portal.state.pa.us/portal/server.pt/community/dep_home/5968

Step 2: Select the DEP Programs (A – Z) link on the left column

Step 3: Click on the first letter of the program you are seeking

Examples:

- A – Arsenic
- C – Certification (Operator Certification)
- C – Chapter 109
- D – Drinking Water (various drinking water topics)
- D – Drinking Water CCR data
- D – Drinking Water Reporting System (DWRS)
- E – Earthwise Academy (water and wastewater operator web courses)
- E – eLibrary (DEP forms, publications, and guidance documents)
- F – Filtration (surface water systems)
- F – Financial Assistance
- F – Fluoride
- G – Greenport (electronic reporting portal)
- M – Maximum Contaminant Levels (MCLS)
- M – Monitoring Waivers (for IOCs, VOCs, and SOCs)
- O – Operator
- O – Outreach
- P – Private Wells
- P – Public Notification
- R – Regulations (proposed and final regs on Public Participation site)
- S – Source Water Protection
- T – TAC Board
- W – Water Supplier Fact Sheets (eLibrary folders)
- W – WebOAS (optimization tool for filter plants)

Step 4: Click on the link to open the web page.

Key Points:

To summarize, the key points of this session are:

- DEP's website contains a vast amount of information that water suppliers can use to help them comply with Chapter 109 requirements.
- Use this document to locate and bookmark the information you need.
- It is our goal to provide more information on our Drinking Water web page and create an A through Z table of contents to help you find the **drinking water** topics.
- We will continue to inform you of the updates we make to our web pages.
