

Project Engineer - Wastewater - Harrisburg, PA Office

GHD is one of the world's leading engineering, architecture and environmental consulting firms. Established in 1928, GHD employs more than 6000 people across five continents. GHD serves clients in the global markets of water, energy and resources, environment, property and buildings, and transportation.

Wholly-owned by its people, GHD is focused on client success. Our global network of engineers, architects, planners, scientists, project managers and economists collaborate to deliver sustainable outcomes for our clients and the community. Our core values of Teamwork, Respect and Integrity help create enduring relationships that deliver exceptional results.

Description

This position is responsible for designing water / wastewater treatment facilities and infrastructure (pipeline and pumping station) projects and assisting with construction management.

Requirements

- A Bachelor's degree in Civil or Environmental Engineering
- 3 - 5 years related experience
- A Master's degree preferred
- PE License preferred
- Prior consulting experience working with municipal clients on wastewater treatment and infrastructure projects
- Must be a team player
- Strong interpersonal and communication skills
- Some travel may be required

We reward your commitment with an attractive salary and full roster of competitive benefits. You'll be encouraged to grow in the profession and we'll provide many of the tools you'll need to make it happen, including in-house professional development programs.

As a multicultural organization, we encourage individual achievement and recognize the strength of a diverse workforce. If you'd like to be considered, please submit your résumé and salary requirements along with the office location you are applying for, in confidence, via www.ghd.com/careers.
