Dear Mr. Haney,

Congratulations on successfully receiving the Five-Year Directors Award of recognition as part of the *Partnership for Safe Water* program. This achievement is no small task. You should be very proud of your accomplishment.

The *Partnership for Safe Water* distributed a press release to all awardees that submitted a media contact list to us. If you did not respond earlier and would like us to issue a press release to your local media contacts at this time, please contact Debby Qualls, Partnership Coordinator at (303) 347-6169 or by email at [dqualls@awwa.org](mailto:dqualls@awwa.org).

Your *Partnership* award status will also be highlighted in the June issue of *Mainstream*, AWWA's monthly newspaper, the September issue of the *AWWA Journal*, and was recognized in Atlanta at the AWWA Annual Conference this month. As soon as the photos of the awards ceremony are available, you can view them on the *Partnership* web site located at [www.partnershipforsafewater.org/whatsnew](http://www.partnershipforsafewater.org/whatsnew).

Now that you've been recognized for your commitment to superior quality water you may want to help your customers understand the significance of your Five-Year Directors Award and what your participation in the *Partnership* program means to them. A major benefit of belonging to the *Partnership for Safe Water* is the message it sends your customers -- you care about them and are taking extra steps to assure them high quality drinking water.

Again, the Steering Committee wishes to congratulate you on your achievement. Your participation in the *Partnership for Safe Water* and your accomplishment demonstrates your commitment to providing the highest quality water to your customers.

Please contact me at 303-347-6220 or [blauer@awwa.org](mailto:blauer@awwa.org), if you have any questions.

Keep up the good work!

Sincerely,

A handwritten signature in black ink that reads "Bill Lauer".
