## TWO EAST PENNSBORO HIGH SENIORS AWARDED PENNSYLVANIA AMERICAN WATER “STREAM OF LEARNING” SCHOLARSHIPS

**HERSHEY, Pa. (May 25, 2011)** – Pennsylvania American Water announced today that 10 high school seniors throughout Pennsylvania have been selected to receive Stream of Learning Scholarships, with each student earning a \$2,000 scholarship. The company inaugurated the scholarship program last year to support outstanding students who are charting a course of study that is critical to the water and wastewater industry.

Locally, Pennsylvania American Water awarded scholarships to Rachel Couch and Wasiullah Mohamed of East Pennsboro Area High School.

A panel of judges selected the winners from more than 100 scholarship applications, which were evaluated on such criteria as academic achievement, letters of recommendation, community service and interest in future careers in the water and wastewater industry.

“This year’s Stream of Learning Scholarship recipients are each outstanding students who are pursuing studies that are essential to the future of our industry,” said Pennsylvania American Water President Kathy L. Pape. “These young people are not only extraordinary academic students, but they’ve also demonstrated a real commitment to environment stewardship and service to their communities.”

In addition to the local students, Pennsylvania American Water awarded 2011 Stream of Learning Scholarships to Sierra Davis of Indiana Area High School, Rachel Clark of Thomas Jefferson High School, Sarah Haralam of Canon-McMillan High School, Nathan McCormick of Upper St. Clair High School, Elizabeth Metzler of Bethel Park High School, Robert Moodispaugh of Peters Township High School and Victoria Schneider and Katherine Welsh of Seton-LaSalle High School.

Pennsylvania American Water, a wholly owned subsidiary of American Water (NYSE: AWK), is the largest water utility in the state, providing high-quality and reliable water and/or wastewater services to approximately 2.2 million people. Founded in 1886, American Water is the largest publicly traded U.S. water and wastewater utility company. With headquarters in Voorhees, N.J., the company employs more than 7,000 dedicated professionals who provide drinking water, wastewater and other related services to approximately 15 million people in more than 30 states, as well as parts of Canada. More information can be found by visiting [www.amwater.com](http://www.amwater.com).

In 2011, American Water is celebrating its 125<sup>th</sup> anniversary with a yearlong campaign to promote water efficiency and the importance of protecting water from source to tap. To learn more, visit [www.amwater125.com](http://www.amwater125.com).
