FROM: AWWA

DATE: June 11, 2009

Who:	AWWA Regulatory Affairs
What:	Selecting Disinfectants in a Security-Conscious Environment
When:	The next 60 days

The AWWA guide, *Selecting Disinfectants in a Security-Conscious Environment*, is now available for free download by Utility Members on the AWWA web site for the next 60 days. Individuals and non-utility members can also purchase a bound copy of the guide in the AWWA Bookstore.

The guide describes a process to evaluate disinfection options that meets the unique needs of each system, regardless of size. This efficient process lets utilities assess various disinfection options, security issues, costs, and other factors. The process is consistent with the guidance provided by the US Environmental Protection Agency's security guidance and the Department of Homeland Security's Chemical Facility Anti-Terrorism Standards.
