

Our Camp Hill (Corporate Headquarters) office is seeking a highly-motivated individual for a key role in our Water/Wastewater Systems Consulting group. If you are looking for new and challenging ways to apply your Environmental, Civil or Water Resources knowledge and experience, come join our team of engineers, scientists, and analysts servicing a variety of environmental practices. Our team members have the opportunity to be involved in multi-discipline projects while developing diverse skills working with our company's environmental and engineering experts. Consider joining our team and contributing to our on-going success while setting the pace of your career.

Duties/Responsibilities:

- Prepare water and/or wastewater system studies. Perform conceptual or preliminary design for water/wastewater projects.
- Perform field inspection of water/wastewater systems as part of a study or on a regular basis. Assess system facilities and operations and document findings in appropriate reports.
- Prepare PADEP permit applications and PENNVEST or other financial aid applications. Submit required reports in support of permit or funding applications.
- Develop and update spreadsheets and tables presenting water/wastewater system improvement plans, such as capital improvement plans for multi-year programs.

- Communicate and/or meet with water/wastewater system clients to request and obtain data needed to perform studies, design, construction, or operation, as appropriate.
- Assist Water and Wastewater Practice project managers and staff with various tasks related to water/wastewater system engineering.

Education/Requirements:

- B.S. or M.S. in Civil, Water Resources, or Environmental Engineering. Coursework in water/wastewater system planning, hydrology, water quality and treatment, operations and related subjects.
- EIT required, PE preferred.
- 0-5 years experience in the water/wastewater field.
- General computer skills (CADD and Microsoft software).
- Strong communication and writing skills.
- Experience in wastewater collection and treatment and/or water supply, treatment, and distribution preferred

We offer competitive compensation and benefits. For complete position details and to apply online, please go to: www.gannettfleming.com/careers.asp.
