

Technology Supervisor

The Fox Chapel Authority is seeking applicants for the position of Technology Supervisor. The Authority serves approximately 5500 customers in Fox Chapel Borough and the Townships of Indiana, Harmar and O'Hara in Southwestern Pennsylvania. It is a consecutive system with five storage facilities, three stations and 113 pipe miles.

The Technology Supervisor develops and maintains Authority information systems, including information security and integrity. Reporting to the Manager, this position shares on-call responsibilities with two other supervisors for 24/7 customer service. Duties include:

- Operate and maintain information systems, serving as primary resource for current information technology applications, including GIS, SCADA and Rapid Response
- Ensure information security and integrity, including back-up systems
- Monitor and supervise activities of third-party providers
- Plan for and implement future information technology, including Authority website and Leak Logger system
- Develop, monitor and maintain website content

Requirements:

Minimum three years of experience with ESRI-based GIS systems

Minimum one year of experience as systems manager or lead in Microsoft environment

Experience gained through education or work history to enable monitoring and development of Authority technology operations

Proficiency in Microsoft Office, including Word and Excel

Current unrestricted Pennsylvania Drivers License

Pa. State Board Certification of Water and Wastewater System Operators at Minimum E12 Level to be obtained within one year of hire date Post High-School education in job-related area preferred

Send resume with salary requirements no later than **April 29, 2016** to Mark Nicely, Manager, Fox Chapel Authority, 255 Alpha Drive, Pittsburgh, PA 15238 or email to mnicely@foxchapelwater.com.
