

6,000 People Die Everyday From Water Related Illness

Water For People helps people in developing countries improve their quality of life by supporting the development of locally sustainable drinking water resources, sanitation facilities and health and hygiene education programs.

Our vision is a world where all people have access to safe drinking water and sanitation; a world where no one suffers or dies from a water- or sanitation-related disease.

Our Committee is made up of Water Industry Professionals who work on a local level to raise funds and awareness for Water For People. We are a volunteer organization that sponsors fund raising events, does educational (at Schools, Churches, Community Groups, Businesses and Industry) programs and works with the national office of Water For People to promote and educate the overall vision of Water For People. The Pennsylvania Water For People Committee is a committee of the American Water Works Association, Pennsylvania Section (PAAWWA).

Your donations locally have a global impact!

Last year was the twelfth year for this event, and it proved quite successful especially in a year where money was tight, but this year the anticipation is that it will far outdo last years event, so you don't want to miss it. This will be an excellent opportunity to bring your clients, co-workers, vendors, friends and relatives to an event that not only raises funds for a great organization, but also raises awareness of the roughly one billion people who are without clean drinking water, and more than 2 billion people who are without sanitary facilities. Every 15 seconds someone dies from a water related disease, and usually it is a child. It is our responsibility to help change this trend, and it is our opportunity to use this event to help raise needed funds to help change the World. Don't you want to be a part of this event? Register today—Space is limited.
