

Did you know? EPA Provides Free Services for Water Utilities!

GIS Loaner Program and Mapping

GIS technology and asset management go hand-in-hand. Plan for the future before an unexpected and costly failure occurs!

- GPS units loaned for free with accuracy up to 10 ft.
- Create maps and databases of your collection or distribution systems
- GIS training for water and wastewater operators

Technical Assistance

Save money, improve your processes!

EPA can help:

- Remove nutrients and avoid paying for nutrient credits
- Assist with troubleshooting activated sludge processes
- Identify inefficient equipment/processes
- Review your electric bills
- ... And more!

Contact: Walter Higgins, (215) 814-5476
Higgins.Walter@epa.gov

“Thank you for all the work that you did up here with our operators.

We reduced our electric bill by \$25,000 for the 2015 audit covering July 2014 to June 2015.”

- Bret Jennings, Chairman, Hallstead-Great Bend Joint Sewer Authority

“Thank you again for the help and all of the suggestions to help reduce the electric and nitrogen at our plant.”

- Mike Palm, Public Works Superintendent, Adamstown Borough, PA
