AWWA National

Founded in 1881, American Water Works Association is the largest organization of water supply professionals in the world. Being the leading non-profit technical and educational association, AWWA is dedicated to meeting the evolving needs of the world's water supply profession. With more than 54,000 members in the United States, Canada, Mexico, and more than 130 other countries, AWWA is a clearinghouse for water supply information and expertise. The activities in part are developed through regional or state sections, in part through general divisions, and in part through standing committees of the national organization.

The Association issues monthly publications that include: Journal AWWA, Opflow, MainStream, Reservoir, and WATERWEEK. Along with the monthly publications, the AWWA bookstore provides manuals, books, videos, and an annual membership directory. Accessible, concise, and readable, these words apply to AWWA publications. The AWWA publications keep members on the cutting edge of technology, new developments, and best practices. Working committees that total nearly 200 come together to carry out the vital work of the Association and set standards for public service. The Association gives its members the opportunity to work and to associate with and learn from the best-informed individuals in the field. AWWA also makes its members eligible for professional recognition for their accomplishments with the Association.

About the PA Section

HISTORY:

The PENNSYLVANIA SECTION was created during a joint meeting of the Four States Section and Western Pennsylvania Section at the 32nd Annual Conference Four States Section held at the Penn-Sheraton Hotel, Philadelphia, on October 20-22, 1948. The members at that time comprising the "Four States Section" were Delaware, District of Columbia, Maryland, and Eastern Pennsylvania. At this historic 32nd annual meeting, Eastern and Western Pennsylvania elected to join its membership and thus created the Pennsylvania Section. Delaware, the District of Columbia, and Maryland elected to separate and thus created the Chesapeake Section. The first annual conference of the PENNSYLVANIA SECTION was held in Harrisburg, at the Penn Harris Hotel, on September 14-16, 1949.

THE ORGANIZATION:

Six officers and a Board of Directors govern the Section. Two councils, numerous committees and staff have responsibility for planning and implementing the technical management, administrative and educational programs of the section. Members are encouraged to actively participate in section programs.

The section is divided into six districts to better serve the large Pennsylvania geographic area.

District programs bring educational opportunities to members' local area and district trustees represent their district on the Section's Board of Directors.

Conferences

The PENNSYLVANIA SECTION sponsors the PA Section Annual Conference and Exhibition, which includes a well-rounded program, intended to benefit those with little or no experience; those with years of experience; and those wanting to stay informed of the changes within the water industry. Participants will also enjoy a well-organized social program with entertainment in an enjoyable atmosphere.

The PENNSYLVANIA SECTION has committees that keep the Association informed with “hot button” topics that are disseminated to its members through the newsletter that is published by the Section. By becoming a member of the Pennsylvania Section, an individual is offered advantages and opportunities that can lead to professional recognition for his/her accomplishments.

WATER IS ALL WE THINK ABOUT.

Pennsylvania is home to us. We've been serving families across the Commonwealth for more than a century. Today, 2.4 million people in more than 400 communities count on us for safe, reliable water and wastewater service around the clock.

A lot has changed over the years, but our commitment to providing exceptional quality, value and service remains firm. We invest hundreds of millions in our infrastructure each year; perform thousands of water quality tests; take measures to protect our watersheds; assist customers in need with their water and wastewater bills; and support community initiatives.

We care about our customers as much as we care about water. At Pennsylvania American Water, it's our privilege to keep your life flowing.

Section 9. Policies

9.1 In accordance with rules of the American Water Works Association on the use of membership rolls for other than Association business, it is the policy of the Pennsylvania Section that lists of members of the Section and Districts are to be used only by the Officers of the Section or Districts, and for official Pennsylvania Section or District business only.

9.2 Any contemplated District awards or citations shall be submitted to and have approval of the Board of the Pennsylvania Section before such awards or citations are bestowed.

9.3 Districts shall maintain a treasury only for the purpose of expediting the payment of postage, printing and incidental costs associated with District meetings. 9.4 The Section Board and the affairs of the Section are best served normally by persons who have served District organizations and who have accepted and faithfully discharged responsibility for District operation. For this reason, the Nominating Committee should be selective in the choice of candidates for District Offices.

APPENDIX B

WATER UTILITY COUNCIL – ORGANIZATION AND OPERATING RULES GUIDELINES

Section 1. Establishment and Purpose of Water Utility Council

There is hereby established within the Section a Water Utility Council (Council). The purpose of this Council shall be to develop action programs to initiate, evaluate, respond and comment, within the framework of Section and Association policies, on legislative, regulatory and other matters which directly affect water utilities and to encourage provision of high quality drinking water service to the consuming public. To assist in educating government officials and the general public on drinking water issues, the Council shall provide technical information possessed by AWWA members to legislators and regulators at all levels of government. The Council shall also bring to the attention of other councils and committees within the Section and the Association those policies, procedures and matters which may fall within their areas of interest. In particular, the Council shall cooperate with the Association's Water Utility Council in responding to and implementing the programs of such latter Council.

Section 2. Membership

The Council shall be comprised of twelve (12) individuals, each of whom shall represent a utility member of the Section (utility member), and six (6) non-utility members, at least one of whom shall be a representative of a state agency having regulatory authority over public water supplies. As used in this Appendix, a utility member is defined as an organization which holds a utility membership in AWWA and whose dues and any Association and Section assessments have been paid up to date.

Section 3. Members, Election and Appointment

Four (4) utility members of the Council shall be elected by the utility members of the Section by mail ballot prior to each Section's Annual Conference. At least one hundred twenty (120) days prior to the Section's Annual Conference, the Council Chair shall appoint a nominating committee whose responsibility shall be to nominate one (1) or more utility member for each utility member term expiring following the next Section Annual Conference. At least seventy-five (75) days prior to the Section's Annual Conference, the Chair of the Nominating Committee shall prepare a sample ballot listing the nominees and submit the ballot to the Section Secretary. At least sixty (60) days prior to the Section's Annual Conference, the Section Secretary shall mail a ballot to each utility member of the Section with instructions for voting and cut-off date for submission of ballots. At least thirty (30) days prior to the Section's Annual Conference, the Section Secretary shall submit to the Council Chair a tabulation of the results of the balloting. Ballots shall be available for review by Section members at the Section's Annual Conference.

Upon notification of election to the Water Utility Council by the Section Secretary, each utility member shall designate, in writing to the Council Secretary, the individual and any alternates who will be authorized to represent that member utility, with full voting rights, at the Council meeting.

The non-utility members, and any alternates, of the Council shall be appointed by the Section Chair immediately after the Section's Annual Conference, with the concurrence of the Section Board.

Section 4. Members' Term of Office and Vacancies

The term of the utility members shall be three (3) years. Members shall be eligible to succeed themselves for one additional term of three (3) years. After absence from the Council for one (1) year, a utility shall be eligible for reelection to the Council.

The term of non-utility members shall be one (1) year and they shall be able to succeed themselves without limit.

The terms of newly appointed and elected members shall begin, and those of their predecessors shall end, at the conclusion of the Section's Annual Conference.

If a Council member, alternate or substitute does not attend three (3) consecutive Council meetings, that member's office may be declared vacant by majority vote of the Council unless there is just cause, satisfactory to the Council, for such absence. Vacancies occurring in the membership of the Council shall be filled by appointment by the Section Chair for the unexpired term. At no time shall there be fewer than three municipal members, three authority members, and three investor-owned members unless the nominating committee, after due diligence, has established that three (3) of any type of membership is not available and/or willing to serve. In filling vacancies, the Section Chair shall make every effort to ensure that, at any given time each District in the Section has at least one utility member on the Council. All such appointees shall be eligible for election for an initial and additional full term of office following the expiration of the unexpired term.

Section 5. Officers and Duties

The Officers of the Council shall be a Chair, Vice Chair, and Secretary. Officers shall be elected by the Council, shall be a Section member in good standing and preferably shall be a representative of a utility member of the Council. Officers shall not be eligible to succeed themselves unless they have served less than a full two-year term. Officers shall be elected every second year at the Council meeting held at the Section’s Annual Conference. The Vice Chair shall not automatically succeed to the Chair.

In the event a Chair is unable to complete his term, the Vice Chair shall act as Chair until the next Council meeting at which time a new Chair shall be elected to fill the unexpired term. Vacancies occurring in other offices shall be filled by appointment of the Chair for the unexpired term and all such appointees shall be eligible for election at the next scheduled election to a full term in office.

Section 7. Executive Committee

There shall be an Executive Committee of the Council composed of the Officers and two (2) additional utility members appointed by the Chair. The Executive Committee shall be empowered to act for and on behalf of the Council in all matters affecting the Council when matters arise which cannot await a regularly or specially scheduled meeting or cannot be addressed by a letter ballot.

Section 9. Letter Ballots

Letter ballots may be sent to Council members when proposed Council action cannot be deferred until the next scheduled Council meeting. Each letter ballot shall contain a summary of the issue to be voted on, any attachments necessary to allow members to examine the issue in depth, a response date, and provision for three (yes, no, abstain) responses. An affirmative vote of two thirds of the members shall be required for passage of a letter ballot. Comments on the issue raised in a letter ballot will be welcomed, but will not be substituted for a vote. A vote by fax or e-mail will be accepted if it is followed by the letter ballot within seven (7) days.

Section 10. Meetings

The Council shall hold at least one (1) meeting each year (“the Annual Council Meeting”), coincident with the Section’s Annual Conference. Other meetings may be held upon call of the Chair or by eight (8) members of Council at such times and places as may be specified. A majority of the members shall constitute a quorum to conduct a Council meeting.

The Council Secretary, with the advice of the Chair and Vice Chair, shall prepare a meeting agenda and distribute it to the Council at least fifteen (15) days prior to each Council Meeting.

Section 11. Substitutes

Council members should have their designated representative or alternate attend all meetings of the Council to the best of their abilities. If a Council member is unable to attend a meeting, a utility may designate a substitute to represent it at a Council meeting.

Substitutes may participate in Council meetings in the absence of the designated representative or alternate, but will not be accorded the privileges of full membership (except as specified in Section 8 above).

Section 12. Committees

The Chair shall be empowered to appoint such standing and ad hoc committees as in his/her opinion may be required to properly conduct the business of the Council. Section members who are not members of the Council shall be eligible for appointment to committees.

Section 13. Special Funds

If, in the opinion of the Council, implementing the Council's programs requires expenditures beyond funds available to the Council, the Council, after concurrence of the Section Board, may make a special assessment against utility members of the Section. The special assessment shall not exceed 10% of the utility members' annual Association dues, to cover such expenditures.

Approval of assessments shall require approval of two thirds of the utility members of the Council and an affirmative vote of two-thirds of the Section Board present at the Board meeting at which the assessment is considered. The Section Secretary shall be responsible for collecting the assessment.

Section 14. Reports

At least thirty (30) days prior to each Annual Council Meeting, the Chair shall present a written report on Council activities to the Section Board.

Section 15. Amendment of the Organization and Operating Guidelines

Amendments to the Organization and Operating Guidelines must be approved by the Council and the Section Board. These Organization and Operating Guidelines may be amended by a two-thirds vote of all Council members present and voting at a Council meeting. They shall not be subject to amendment by letter ballot.

After approval by the Council, the Council Secretary shall forward the proposed amendments to the Board for review and approval, prior to becoming effective.

An affirmative vote of a majority of those Board members present at the board meeting at which the amendment(s) is considered shall constitute approval. A vote of the general membership shall not be required.

Section 16. Responsibilities

The responsibilities of the Council shall include, but not necessarily be limited to, developing action programs to initiate, evaluate, respond and comment within the framework of Association and Section policy on legislative, regulatory and other matters which directly affect water utilities in order to encourage provision of an adequate quantity of high quality drinking water service to the consuming public.

When the Municipal Authority of Washington Township in Fayette County needed a pump in a hurry, they called PaWARN.

Thanks to PaWARN, none of our customers lost water! PaWARN is such a great resource to have. I would definitely encourage Authorities to consider being part of the PaWARN network. You don't realize how much you need PaWARN until you do!

Jan Amoroso, Manager

We Love Pennsylvania's Water.

We love water, especially here in our home state. From our first project 105 years ago to addressing today's emerging contaminants, we engineer the future of water in communities across the Commonwealth. Put our passion for our most valuable resource to work for your utility.
