

Buchart Horn, Inc. has an exciting opportunity for an experienced **Chief Engineer - Wastewater Treatment** to join our Water Resources Strategic Business Unit based out of our York, PA office. This position can be seated in either the York, PA, Marlton, NJ or Baltimore, MD locations.

What we have to offer:

You will be a part of a team that is making a positive impact in your community. The projects our team supports are local and regional projects that our employees can be proud of providing community contribution. We also promote a culture of social responsibility by making genuine connections in the community and finding ways to contribute. You will have the opportunity to be a part of a company that promotes a culture of social responsibility. BH employees volunteer 5,000+ hours in the communities where they live, work, and play every year. The values that make a responsive organization to our clients are the same values of caring and empathy that lead to concern for our neighbors. Community service is part of who we are and integral to the culture of our organization. You will be inspired and empowered to do your best work, because at ***Buchart Horn, Inc, our people make the difference.***

What you will be doing:

As the **Chief Engineer - Wastewater Treatment**, the primary focus of the work will be to actively engage and support our Project Managers as they work with our wastewater clients within the United States, primarily in the Mid-Atlantic and Southern Region of the country. You will also manage and oversee the design, permitting, planning, development, and construction of wastewater projects for authorities and large private utility companies.
