

Material Matters, Inc. is Hiring!

Senior Wastewater Scientist

The Material Matters team is growing! We are seeking a highly motivated **Senior Wastewater Scientist** to join our consulting team. This position will focus on providing innovative solutions to clients in the wastewater and water industries, with a focus on solving challenges associated with residuals production and management. Duties include developing the best approach to solving problems with technical assignments in accordance with state and federal regulations. Successful candidates must be able to work with limited supervision and have competencies with computer applications, including Excel, Word & electronic communications. This position reports directly to the Senior Project Manager.

PRINCIPAL TASKS

- Identifies innovative solutions for municipal and industrial wastewater and water treatment facilities, specifically related to solids treatment and handling and residuals management.
- Visits wastewater treatment plants and, to a lesser extent beneficial use sites, to observe existing operations and identify challenges.
- Reviews, interprets, and understands state and federal environmental regulations, specifically those relating to biosolids, water treatment residuals, food processing residuals, and other residuals management
- Communicates with clients, regulators, peers, and other professionals.
- Prepares written reports and regulatory forms for submittal to regulatory agencies and clients.
- Assists clients with improving wastewater treatment operations and laboratory practices.
- Assists in business development, including identifying business opportunities and proposal development.
- Completes administrative tasks as timesheets, expense reports, and workload projections.
- Miscellaneous duties as needed

CERTIFICATES, LICENSES & REGISTRATIONS

- Obtains and maintains certified operator license
- Valid Driver's License

MINIMUM REQUIREMENTS:

Bachelor of Science Degree in Agricultural Engineering, Environmental Science, or related science field and a combination of 10 years of experience in wastewater treatment consulting or wastewater related experience.

Are you ready to join our team?

Interested candidates should submit a resume and cover letter to Jade Triton at jtriton@materialmatters.com.

ABOUT THE COMPANY
